

Phonics Plug-In Heart Word Flash Cards

The heart word cards in this packet are for students in Phonics Plug-In TWO to use for additional heart word review. They can be used in various ways. For example, students can take them home for practice or they can be used for additional review in class.

The following pages have the 23 Heart Words (irregularly spelled high-frequency words) taught and practiced in Phonics Plug-In TWO lessons.

Each heart word is on one card. The unit number in which the heart word is taught is on the lower right of each card.

There are two sets of heart word cards. Teachers can select which set they think is appropriate for each student to use for practice.

- **Set 1 – Heart Letters Marked** (5 pages)
The words for Units 1–10 have a heart symbol over each of the heart letters, which is the way they appear in the Student Book.
- **Set 2 – Heart Letters Not Marked** (5 pages)
The words do not have the heart letters marked.
